Introducing the **Como MK2**

Made exclusively for the Plumbing Plus Group by Decina Bathroomware

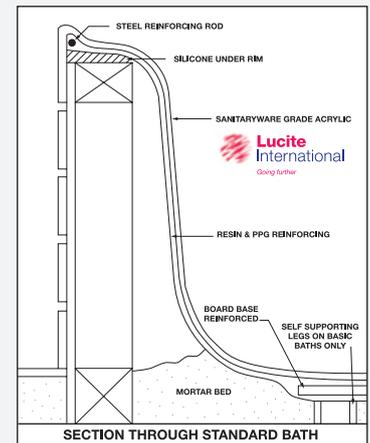

manufactured by
DECINA
BATHROOMWARE
relaxing your senses

Your Bath

Decina's acrylic baths are moulded from a single through coloured sheet and they do not rely on a surface applied colour like their contemporaries.

The beauty of acrylic as a manufacturing material for designers is that the material is drawn down onto a mould and shape is only limited by imagination. Gone are the cold, uncomfortable and thermally inefficient baths of yesterday.

Decina choose to use Lucite 'SD' sanitaryware grade acrylic sheet regarded as the Worlds best with a harder surface for increased scratch resistance, chemical resistance and longer life. There are other baths on the market that use XL or general purpose acrylic which will not necessarily comply with the Australian Standard or produce a long life in service. A good indicator of your security is the length of the manufacturer's warranty. The Como Bath has a fifteen year warranty.

Como Mk2 Inset Bath

Australian Made

Fifteen year warranty

Lucite sanitaryware grade acrylic

Steel rim reinforcement

Double reinforced base

Unique minimalist shape

Highest level of scratch resistance

High gloss for easy clean finish

Best level of heat retention

1650 x 760 x 440mm - 139 litres (200mm below rim)

1800 x 760 x 440mm - 156 litres (200mm below rim)

DECINA EZI-FRAME BATH SUPPORT FRAMES

The "EZI-FRAME" is the solution to easy, structural on site fitting of baths and spa baths. The "EZI-FRAME" eliminates the need for further support with an affordable galvanised steel support frame with adjustable legs that can be fitted under the bath on site.

- Low cost
- Easy to install
- Time saving
- Structural support
- Adjustable from 55mm to 170mm

Your Home Spa

The Como Mk2 is available in two spa bath configurations.

The Santai Series Spas features our Mod jet spa system. These Mod Jet fittings supersede the old spa fittings of yesterday highlighting a smarter, streamlined look and are easy to clean.

The Contour Series Spas feature c-lenda's patented technology, the fittings are mounted flush with the bath wall creating a smooth continuous surface without protrusions. Ergonomically these are the most comfortable jets available on the market today.

All Como Spa Baths

Spa Bath pumps, jets and fittings

Santai specification Spa Bath

- 10 x jets including four lumbar
- Low profile Mod Jets
- Unique safety cut out
- Air button pump control
- Whisper quiet 65db pump
- Self-draining pipework
- Self-heating pump for 15% lower running costs
- Runs off 10amp power point

Contour specification Spa Bath

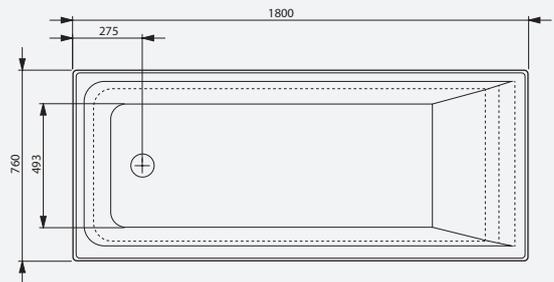

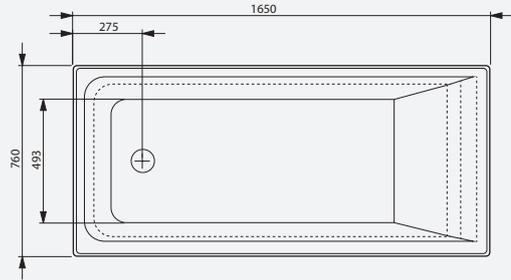

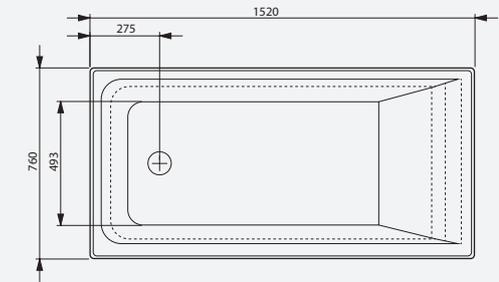

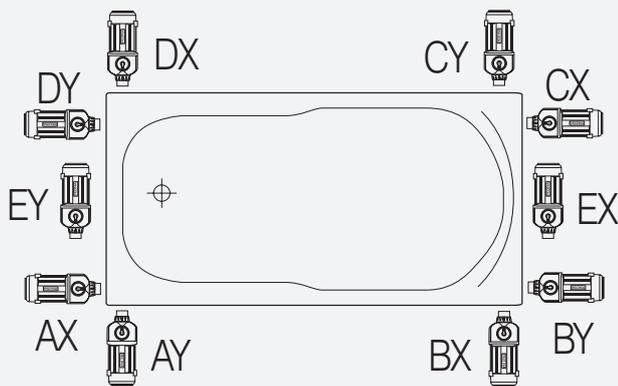

- 12 x jets including four lumbar and two foot jets
- Stainless steel jet dress trims
- World's lowest profile jets and fittings
- Self-heating pump with electronic boosting
- Low voltage electric pump and pump heater controls
- 1.0kw whisper quiet, self-draining pump
- Runs off 10amp power point
- Dry run pump protection
- Soft feel head rest

Your Bath Specs

Your Decina spa bath is supplied with all pipework completed up to and including the barrel union connections for the pump. The height of the pump is established in the factory to ensure the system will prime and self drain, and water tested prior to despatch.

We have listed here your choice of pump positions. In all cases the pump has to be located so it can be accessed for maintenance.

Optional Cascade Pivot Panel

The Cascade Pivot Panel is perfect for any shower over bath application and is a smart solution for smaller bathrooms.

- Invisible channel brackets (all fixings are on the inside of the channel) create clean lines and a seamless finish
- The simplicity of the glass screen opens up the bathroom space and is meant to complement the design aspects of your bathroom by being unobtrusive
- Easy to clean
- Panel swing through 180°
- Drip strip to bath
- Available in Chrome or White
- 6mm toughened glass

Note - Towel Rail shown optional extra - Chrome only
